### Hands-on Jobs for Technical Persons and Other Production-Related Jobs

Dynaset factory has many options for those who don't feel they belong in the office.

- So far, we are offering at least 20 summer job positions next summer, and more than half of them are in our production department, said Production Manager Tero Ylä-Soininmäki.

So if you wish to get your hands dirty in summer, our production is calling for your name! The production department has summer jobs of assemblers, mechanics, hydraulics assemblers, electricians, and logistics workers summer job positions open. Even a position for a vehicle fitter is open for people who are into vehicle installations.

Also, production supervisor and work planner summer jobs are available!

### Positions for University of Applied Sciences and University Students

We also have many openings in engineering, marketing, sales, purchasing, and freight forwarding departments that suit students well.

- Our engineering team is searching for an engineer intern for summer 2023. Internship focus on automation, electrical engineering, mechanics, and R&D laboratory measurements, said R&D Manager Pasi Yli-Kätkä.
